

THE FRENCH TOUCH

CATALOGUE
2018

© Jona Fransa

THE FRENCH *TOUCH*

The French Touch is above all a state of mind. Rooted in the French savoir-vivre, it reflects a desire to make each product unique. Particular attention is given to design to ensure the elegance, the technicality, the ergonomics and the practicality which characterize French products. The importance given to reducing the carbon footprint is also one of the major values of the French Touch.

Dear partners,

The JVD team is delighted to present the new 2018 catalogue. This edition is very special because it includes a large number of new products and reveals our new visual identity.

Indeed, after 34 years of continuous development, this change of logo aims to more precisely express the reality of what JVD has become: a global company, with its own R & D and manufacturing center in France, always striving to provide our customers with quality products accompanied by the best service.

Driven by your long-standing confidence in us, we continuously invest to guarantee innovative and smart design: The French Touch!

Thank you for your support; it is our motivation and something we strive to maintain.

Yours sincerely,

Thierry Launois,
Managing Director

YEARS

OUR HISTORY

- 1984** • Creation of the company
- 1988** • JVD develops its first hand dryer and becomes manufacturer
- 1991** • JVD develops its first hair dryer
- 1997** • JVD creates its own design office
- 1999** • Creation of the JVD Asia subsidiary in Singapore
- 2006** • JVD creates its own integrated design department
- 2007** • Creation of the JVD España subsidiary in Spain
- 2015** • Creation of JVD America in Mexico

THE JVD GROUP IS GLOBAL WITH LOCATIONS IN EUROPE, ASIA AND AMERICA.

Spain - PortAventura Hotel

Monaco - Monte Carlo Bay

Russia - Lotte Hotel

Mc Donald's **Restaurants**

Portugal - Cascais Miragem

France - Le Negresco

Singapour - Sofitel So

...

SMART

From children, mobility impaired people to maintenance staff, our products have been designed to be useful for everyone. Adapted to their environment, they are designed to be safe, practical and ergonomic.

DESIGN

JVD's design department is now more than 20 years old. Our design teams strive to embody the spirit of the French Touch.

A SENSE OF SERVICE

Providing the best service to our customers and partners is part of the JVD DNA. Our teams have always worked to ensure the best quality, the best delivery and the best support.

ECO-DESIGN

From the conception, JVD products are designed to minimize their impact on the planet. From packaging to electrical consumption, every detail is studied and optimized.

As an industrial designer, JVD has been a fantastic platform for me to express myself. We belong to the hospitality business which is very dynamic, with ever changing concepts for a better guest and operator experience. We have to constantly innovate with new technology and designs to keep up with times. Every successful product developed during the last 33 years involved constant research, feedback and collaboration amongst hotel guests, hoteliers, and our professional distribution channels worldwide.

The success of a product is after all a human experience !

Jean-Guy De Russe
JVD Chief Designer

As part of our environment friendly approach, the JVD catalogue is printed with vegetable inks on ecological paper from sustainable forests. JVD would like to invite all our partners and customers to ensure we have their e-mail address to send this directly in electronic format.

THE BEDROOM UNIVERSE

A WORD FROM THE DESIGNER

In recent years, we have witnessed a profound change in the design of hotel rooms. We have gone from an often stereotyped environment to a place of experience. The time spent in this place by the client must be atypical, personal and even sometimes surprising. Our products are designed as part of this new trend. As part of increasingly varied environments, our design also adds its own aesthetic touch, sometimes fully integrated and sometimes standing out. Naturally, beyond its decorative appearance, the object must also offer specific functions to hotel rooms, while being efficient, rugged, safe and faithful to the philosophy of the hotel. Use must be simple, universal and ergonomic. Our products, both practical and aesthetic, are designed based on this dual expectation.

HAIR **DRYER**

LIGHTOUCH® RANGE HAIR DRYER

A WORD FROM THE DESIGNER

The Altéo project was exciting. Designing a high-end hair dryer requires strong principles. The first is high power which naturally impacts the volume of the blade section. The second is to be able to give the user a feeling of strength yet softness through the grip. The integration of a unique innovation, the LighTouch® solution, turning on the hair dryer by simply grasping it was a significant challenge. It required long periods of research to be able to propose a handle combining finesse, strength and softness. I wanted to achieve simple and peer lines with profiled curves that reinforce the impression of speed. The result is an outstanding combination of the finest design and revolutionary technology.

UPC (unit pieces per carton)

A black and white photograph of a woman with long, dark, wavy hair, wearing a light-colored, textured knit sweater. She is sitting in a white plastic chair and drinking from a clear glass. The background is a blurred outdoor setting with a building and some foliage. The text 'MINIBARS' is overlaid in the lower center of the image.

MINIBARS

MINIBARS

THERMO-ABSORPTION

ECO
CONCEPTION

JVD minibars are completely silent during operation, offering maximum comfort to your staying guests. JVD minibars are available in different capacity to suit your cabinet fittings. They come complete with LED interior lighting as well as quality lock.

Purchasing a JVD silent minibar is a long-term investment in quality.

Design & Construction

Using a unique combination of thermoelectric and absorption cooling processes, JVD thermo-absorption minibars boasts several benefits; no ammonia, CFC-free, and tremendous energy saving whilst maintaining superior cooling performance.

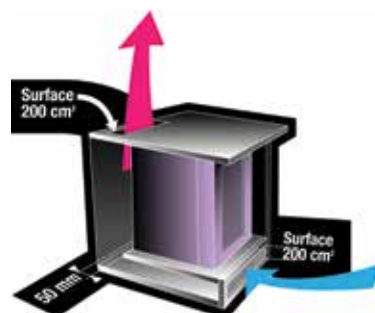

JVD minibars are maintenance-free. With specially designed modular parts, this further prolong the life-span and usage.

Ventilation Requirement

When integrating the minibar into your hotel room cabinet, it is crucial that the surrounding area of the minibar must have unhindered airflow.

To get the best performance, the minibar needs at least 200cm² free air inlet. This space should be kept until the air outlet. Rear of the minibar should be at least 20mm clear from the furniture wall.

SPACE-SAVING

Integrated ironing system designed for convenience and space-saving to stow iron and ironing board.

The system combines the iron, the iron holder and board (includes the board hanger) all into one complete unit.

The board is equipped with a retractable hook that allows hanging on the closet bar.

DESIGNER'S INSPIRATION

Mirrors invite us to enter a new dimension. The magnifying function of a mirror creates a new universe where everything is bigger. I wanted this trip to take us even further and so I designed this mirror in the image of a flying saucer. It was to be powered by a revolutionary "engine"; battery-operated and unique on the market. I structured the whole unit around a chromed base to which I added a crown of light imitating Saturn's rings. Finally, I added an almost magical capacitive switch.

Jean Guy de Rusé

NO ELECTRICITY

Can be installed anywhere even without AC power outlet. No power points and cabling required.

Uses long-life lithium battery with intuitive lighting and automatic power-cut. The system ensures battery lasts for at least 3 years under normal use.

SPECIFICATIONS

- Wall-mounted double arm
- Adjustable height in desktop
- LED lighting
- Magnification 3X
- Mirror diameter 200mm
- Intuitive/touch activated
- 3 minutes auto-power off
- Lithium battery operated 3.6V
- Battery life minimum 3 years
- Brass chrome finishing
